

The Ultimate Web Design Machine! The IBM IntelliStation®

Use your Imagination!
Be Creative!

Design compelling Web sites with industry leading software and a new class of workstation designed to invigorate your art and energized to keep inspiration flowing.

IBM has teamed with leading software vendors, Adobe Systems®, Lotus Corporation®, Macromedia® and NetObjects® to bring you the newest versions of the industry leading web design products on the award-winning, high performance, IBM IntelliStation.

From the stealth-gray fuselage to the pixel-perfect display, you can sense the raw energy of this machine. A can-do attitude that steps up to your daily challenge: to do more, in less time, with higher quality. The IBM IntelliStation combine's Intel's most advanced Pentium® II processors with Microsoft® Windows® NT 4.0 operating system for uncompromised application performance. Furthermore, the IntelliStation is capable of expanding from a single processor to a dual processor - simply plug in a second Pentium® II module for symmetric multiprocessing and get a real performance kick from multithreaded code. The IBM IntelliStation bristles with flexible firepower to spark your creativity - and make the most of your time.

Offered at an incredible value, you may purchase this IntelliStation system at <http://www.ibm.com/e-business/webtools> or from your Authorized IBM Reseller. In addition, it is available with IBM SystemXtra which is designed to make the most of your investment by combining technologies, services and flexible financing. To further enhance your capabilities, IBM is including a 30 day trial of IBM's HomePage Creator. For those of you interested in supporting mission-critical applications via the Web, consider IBM's WebSphere Application Server.

Web design demands the best and IBM brings it to you with the Ultimate Web Design Machine! The IBM IntelliStation.

Invent! Imagine! Intelligent! Ingenious! Inspire!

The Ultimate Web Design Machine! The IBM IntelliStation

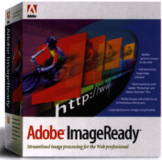

Included Software Features

Adobe Illustrator 7.0®
Adobe Illustrator® is the finest tool available to create sophisticated, technical illustrations, information graphics, and page designs for print, multimedia and the World Wide Web.

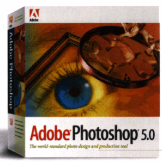

Macromedia Flash3™
Macromedia Flash3™ is designed for the professional design, dynamic generation, and universal playback of vector graphics and animation on the Web.

Adobe ImageReady 1.0™
Adobe ImageReady™ software is an optimization, compression and animation powerhouse with everything you need to boost your productivity and prepare images for the Web more efficiently than ever before.

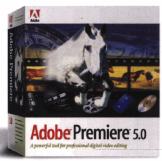

NetObjects Fusion 3.0®
NetObjects Fusion® is a powerful visual Web site creation and management tool that addresses design and maintenance issues while providing support for Internet-based standards.

Adobe Photoshop 5.0®
Adobe Photoshop® software provides the image-editing power you need to create compelling images and the precision to prepare them for whatever media you choose.

NetObjects Fusion ProPack®
NetObjects Fusion ProPack® puts dynamic database publishing, client- and server-side scripting, and easy-to-use Java tools at your fingertips. It also gives you the power and ease of creating database-driven, interactive Web sites with the suite of products and components included in this package.

Adobe Premiere 5.0®
Adobe Premiere® software is leaping into a new world of high-end video editing. This robust program works superbly in the most demanding video environment, while still supplying exceptional support for new video enthusiasts.

Lotus SmartSuite License
IBM Via Voice Gold
with Microphone
AntiVirus software for Microsoft Windows NT

Included Hardware Features

IBM IntelliStation® M Pro Model 6889-90U

CPU Intel 400 MHz Pentium® II Processor	CD-ROM drive 32X-14X variable speed
Memory 256MB ECC SDRAM	Network Integrated 10/100 Ethernet
Hard disk drive 9.1GB/7200RPM Ultra Wide SCSI with S.M.A.R.T.	Operating System Microsoft® Windows® NT Workstation 4.0
Graphics Engine Matrox Millennium II (8MB)	

IntelliStation

Optional Hardware Features

To complete your ultimate Web design machine, we highly recommend the IBM P202 Monitor for uncompromised image clarity on a 21 inch Trinitron CRT and the IBM Color Flat Bed Scanner which provides the capability to scan and produce clean sharp black and white or color images.
